

QUALITY POLICY

TransTech is dedicated to quality and continuous process implementation for both customer and employees. Our responsibility is to ensure that through established standards and measurements, the level of quality at TransTech matches or exceeds our customer's expectations.

We develop quality awareness through process improvements, training, measurements, and development of our employees.

Quality is an integral part of our commitment to fault free products and customer service. Our quality process includes;

- Researching improvements to add to the quality of our products
- Helping to define and improve our products through involvement with our employees and our customer
- Conducting internal quality audits and management review for an ongoing evaluation and improvement of our quality system
- Using and developing Key performance indicators
- Meet specified requirements by implementing controlled working practices
- Enhance Client satisfaction
- Continuously improve by setting and pursuing measurable objectives
